UHR UPDATE

The Future of Work@Iowa

Summary of Recommendations
UI Staff Council  
Wednesday, May 11, 2022  
2:30 – 4:30 pm  
2520D UCC and via Zoom

- Flex work will continue as a permanent talent strategy.  
- As a resident campus, it is important the work arrangement reflects the job functions. Remote work is not the norm, and a business rationale is required.  
- Arrangements will be reviewed annually as part of the performance review cycle. There will be additional questions added to the Work Arrangement application.  
- Local decision making and approval at Org/Division level for in-state  
- Domestic and international placements will require expanded approvals to help mitigate risks.  
- Over time, there will be an opportunity to review how space is used on campus.

HR is focused on making this a positive experience for the campus, the colleges and divisions, and the employee. A microunit was created to focus on work arrangement implementation. Diana Kremzar, Director, UI Family Services, has been named the leader for this microunit. Other members of the microunit represent Organizational Effectiveness, Payroll, Communications, Project Management, UIHC and HR. They will be responsible for:

- Launching the new work arrangement application  
- Advancing additional supervisor training  
- Risk mitigation framework  
- Policy update  
- Metrics - evaluation and reporting

The goal is to have updated arrangements into the system by July 1. In the long term, staff should expect their work arrangements to be reviewed each year alongside their performance review but a new form will not be needed.

UISC question: what metrics will be used to determine success?

- Continue to use pulse surveys to measure employee, supervisor, and team performance  
- Ability to recruit and retain and if remote work played a role in this  
- Exit surveys  
- Division of Student Life provided information about the student experience  
- Working at Iowa results

**Phased Retirement Pilot Program Expansion**

UI is looking to expand the phased retirement program and a pilot is on the consent agenda for the upcoming Board of Regents meeting.

What would change:

- Program would expand from two years to three years  
  - Year one and two must be between 50-65%  
  - Third year must be 50%  
  - Full retirement at the end of the phasing period  
  - For phasing periods of one-year or less, the appointment cannot exceed 50%  
- Expansion of current optional “up to 10%” salary incentive  
  - Salary incentive available for year one and year two if a three-year agreement
UI Staff Council  
Wednesday, May 11, 2022  
2:30 – 4:30 pm  
2520D UCC and via Zoom

- Only available for year one if a two-year agreement  
- Not available in one-year or less agreement

If approved, it will become effective June 3, 2022 through June 30, 2025. If people are currently on a phased agreement, this policy would not apply. Individuals could wait until June 30, 2025 to begin this program. It depends on when the agreement begins.

What is not changing:

- Eligibility: regular faculty and staff in a 50% or greater role appointment for 15 years and attained age 57 at the time the agreement starts  
- Insurance benefits, retirement benefits, and time off accruals

Forms are available on the [Phased Retirement website](#) but no agreements can be signed until the pilot is approved by the Board of Regents.

The Benefits office is happy to meet with anyone if they have questions about the program.
